Education

Informatic Engineering

Universidad de Guadalajara • Guadalajara, Jalisco

06/2019 - 06/2023

Work experience

Universidad de Guadalajara • Guadalajara, Jalisco

08/2021 – 10/2023

Planning, development, and maintenance of website applications for Universidad de Guadalajara and ITRANS, with a focus on

- System deployment using Docker.
- Design and integration of relational and no relational databases.
- Development and implementation of RESTfull APIs.
- Interactive and responsive UI integration.
- Unit and feature testing implementation.
- User guide and technical documentation.

Netcommerce • Guadalajara, Jalisco 10/2023 –

03/2023

Development and maintenance of website applications for Honda México, Mazda México, and others. My activities had a main focus on:

- Design and integration of relational databases.
- Development and implementation of RESTfull APIs.
- Interactive and responsive UI integration.
- Unit and feature testing implementation.
- High user concurrency handling.

SISU Technologies • Remote 04/2024 – Present

End-to-end development of web and mobile applications, including client consultancy, requirements gathering, system design, and implementation for diverse industries. My activities had a main focus on:

- * Requirement gathering
- * Software time estimations for the client
- * System architecture designs
- * ReactJS web apps development.
- * NodeJS/ExpressJS backend service development
- * Software services migrations
- * Software maintenance
- * Third party feature integrations
- * Client advice and consultancy
- * High user concurrency handling.
